Shuriken Power Cells

These batteries are engineered to provide all the power needed for today's car audio systems.

By using Absorbed Glass Matt (AGM) technology these rechargeable power cells can be mounted in any position needed and won't spill.

They also have extreme resistance to excessive heat and strong vibration.

And with super low ESR and closely packed pure lead plates, each power cell will Pack a Punch!

Shuriken...The compact, specialized power source for today's high performance car audio systems!
